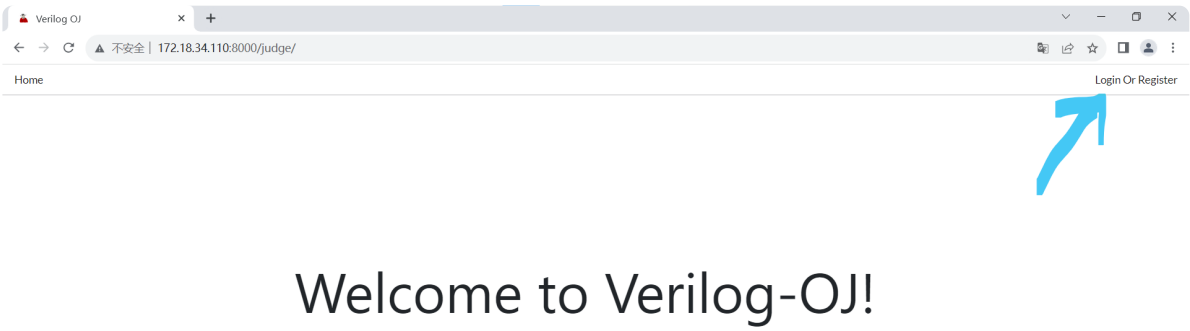
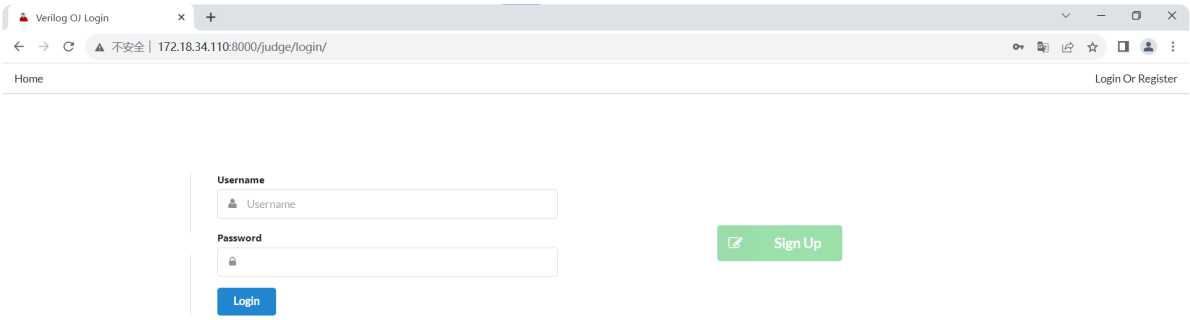
How to submit a practice

Login

Please visit Link to enter the Verilog OJ platform. Click on the button *Login or Register* in the upper right corner to enter the login page.



The initial username and password are both your student ID (e.g. 11912013). During the initial login, the password needs to be changed, otherwise other service cannot be used normally. Password modification requires a combination of numbers and letters, with a length greater than 8 and less than 20.

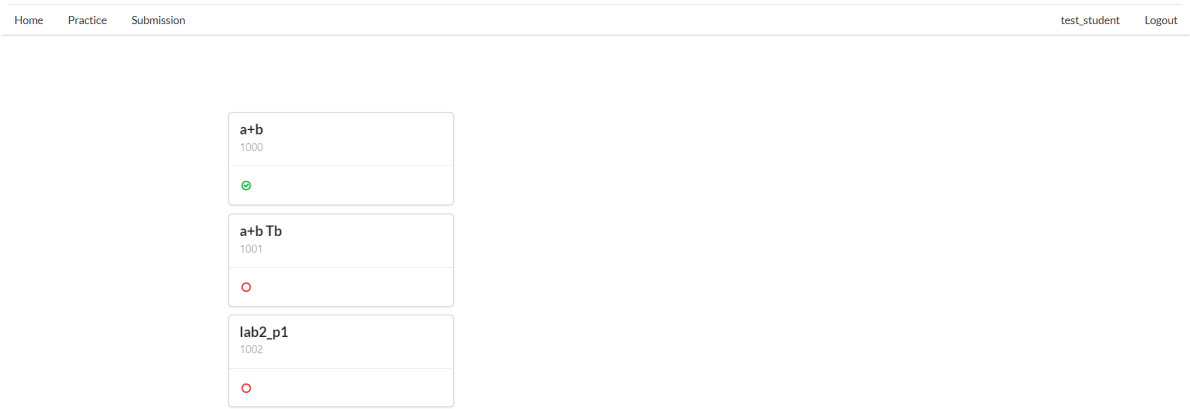


View Practice

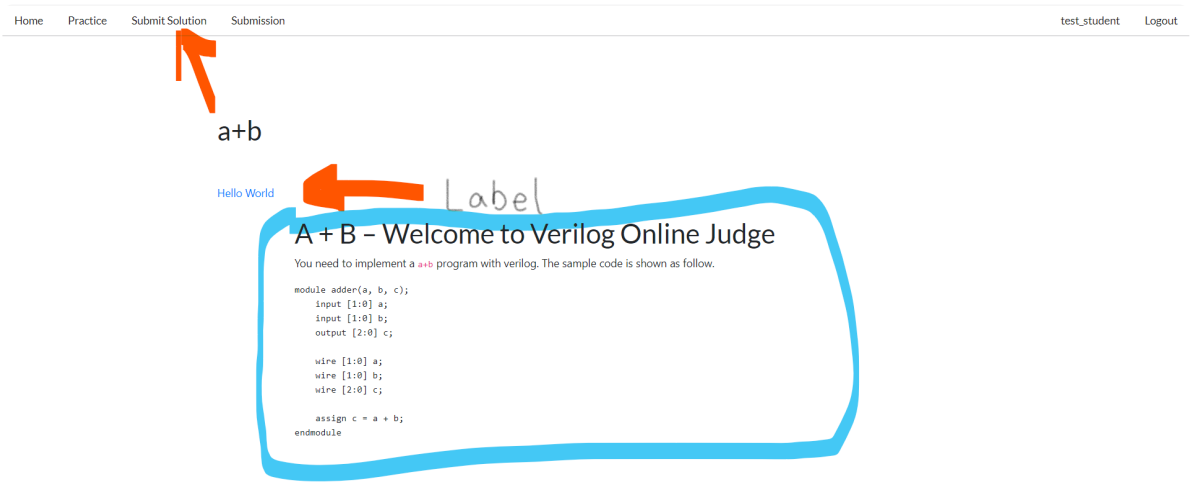
After entering the interface shown in the figure, click on *Practice* to view all visible exercises.

Welcome to Verilog-OJ!

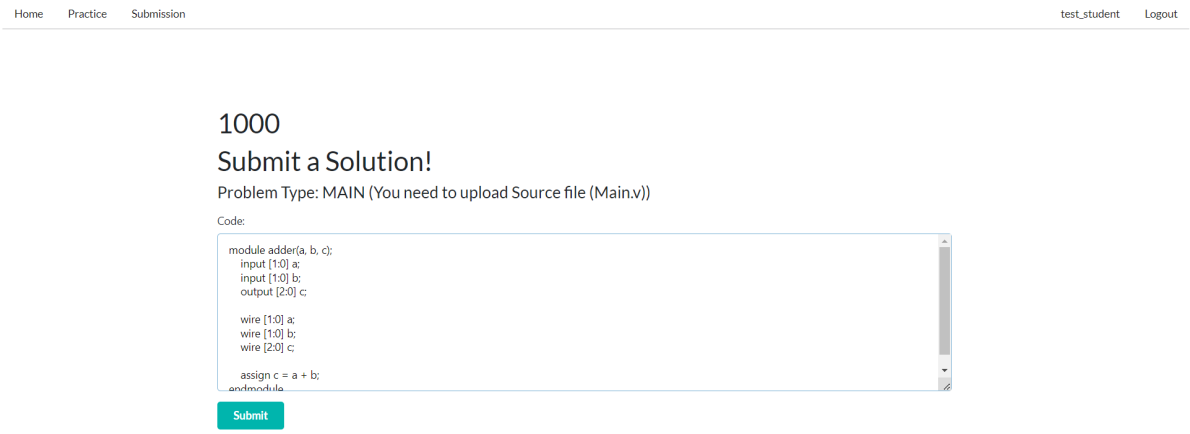
As shown in the figure



Click on the card to enter an exercise (such as *a+b* and *a+b Tb* , which have already displayed standard solutions in the question description. Simply copy and submit them), view all the labels and description of the question, and click on a label (such as *Hello World*) to view all exercise questions with the same label. Click *Submit Solution* to enter the page for submitting answers.



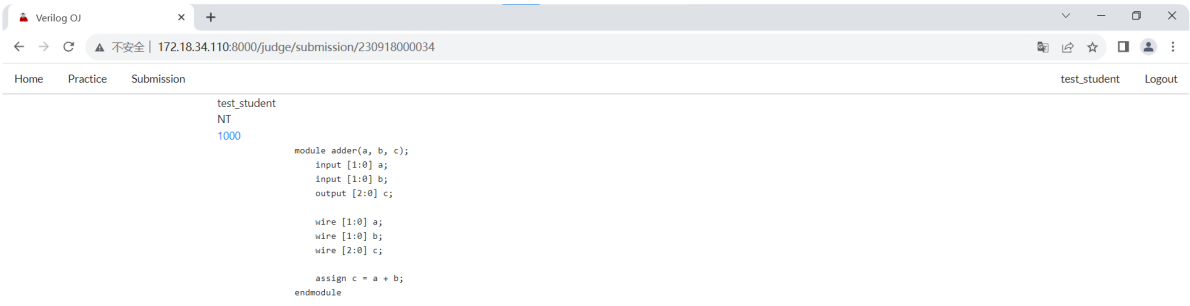
Submit Practice

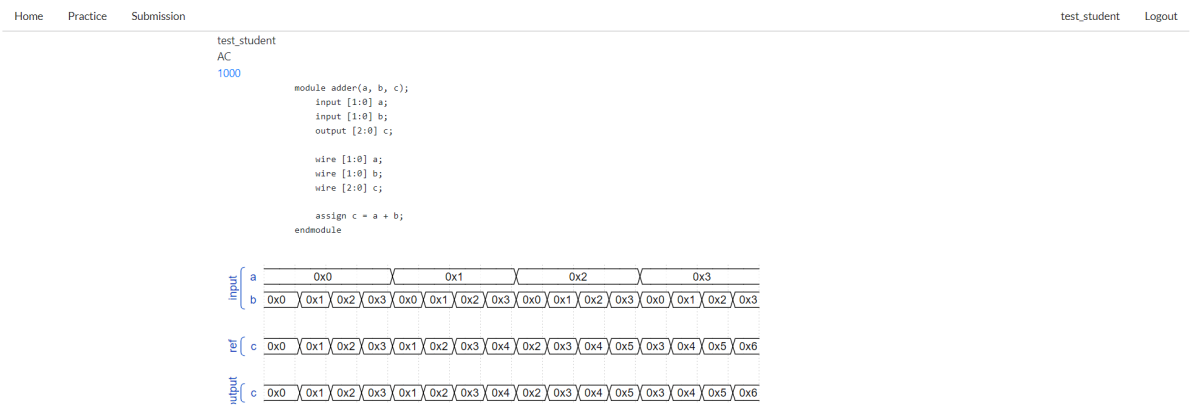


Click the *Submit* button on the current page to submit your answer.

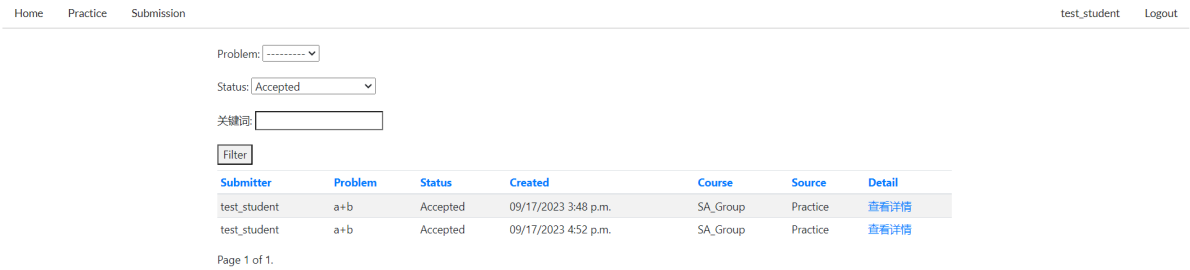
View Submission

After submitting the answer, you will be redirected to the details page of this submission. If the submission result shows NT (Not Tested), please try refreshing (F5) the page.





> Common results and corresponding meanings:
>
> NT (Not Tested): This represents it has not yet undergone evaluation for this submission. Please try refreshing the (F5) page. If you are still unable to view the submission results, please contact your administrator.
> AC (Accepted): This represents you have submitted successfully and received the correct answer.
> WA (Wrong Answer): This represents you have submitted successfully, but the answer is incorrect.
> CE (Compile Error): The submission was successful, but could not be compiled. Please test in the local emulator (like vivado) before attempting to submit. Except for grammar issues, please pay attention to whether the module name matches the requirements of the statement.

View all Submission


Click the Submission button at the top of the page to view all submissions, and you can filter the submission results through certain methods.
